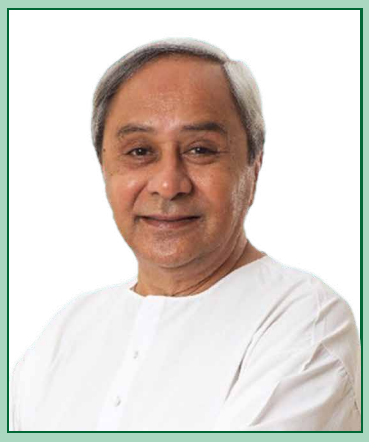
Your cue to a gl🌍bal career in SAP

Skilled in ODISHA



Message from Hon'ble Chief Minister, Shri Naveen Patnaik

I am glad to learn that in these testing times, when the COVID-19 pandemic has raised new challenges to mankind, the skill ecosystem of Odisha has taken a giant step forward in innovation for facing the emergent challenges.

As we celebrate World Youth Skills Day with the theme 'Skills for Resilient Youth', I am truly delighted to note that we are entering into new collaborations with leading stakeholders to energise our skill ecosystem.

Our partnership with IT giant SAP and TimesPro will enable our engineering students greatly to get trained in SAP ERP courses and will, in turn, create a talent pool for the IT industry

I am confident that such collaborations will lead to more opportunities for our youth at the global level and will make skill aspirational for them.

I congratulate and convey my best wishes to all of you on this momentous occasion.

Anish Srikrishna - CEO, Times Professional Learning

"We are happy to partner with OSDA and participate in the 'Skilled-in-Odisha' initiatives. TimesPro strives to provide learner-centric, industry-relevant, technology-supported and employment-focused education, which the Digital Skilling Project, in partnership with SAP, will help fulfill."

THE SAP ADVANTAGE

SAP is at the center of today's technological revolution. The market leader in enterprise application software, SAP helps generate new opportunities for innovation and growth, and in staying ahead of the competition.

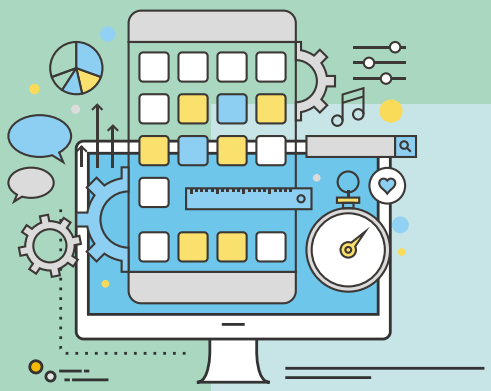
Access to pre-configured SAP Training systems



SAP ABAP

Advanced Business Application Program

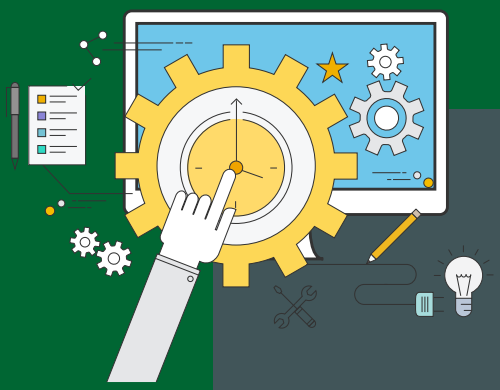
ABAP is a high-level 4TH generation programming language that runs in the SAP ABAP runtime environment. It is created and used by SAP for the development of application programs. All of R/3's applications and even parts of its basis system were developed in ABAP. It is an event-driven programming language. User actions and system events control the execution of an application.

THE GOAL WOULD BE TO:

- Understand the SAP NetWeaver AS fundamentals
- Work with the ABAP workbench tools
- Understand program database updates
- Write object-oriented programs with ABAP
- Understand the techniques in enhancements and modifications
- Create simple Web Dynpro for ABAP applications

PROSPECTIVE CAREER ROLES

- SUPPORT ENGINEER
- SYSTEM ANALYST
- SOLUTION ARCHITECT
- TEAM LEAD
- TECHNICAL DIRECTOR



SAP MM

Material Management (Procurement)

SAP MM module manages materials required, processed and produced in enterprises. Different types of procurement processes are managed with this system. Some of the popular sub-components in SAP MM module are vendor master data, consumption based planning, purchasing, inventory management, invoice verification and so on.

THE GOAL WOULD BE TO:

- Explain and use the basic functions of external procurement in SAP ERP
- Utilize process invoices and manage discrepancies
- Prepare and perform a physical inventory of warehouse stock
- Configure valuation and account determination

PROSPECTIVE CAREER ROLES

- JUNIOR FUNCTIONAL CONSULTANT
- SUPPORT CONSULTANT
- FUNCTIONAL CONSULTANT
- TEAM LEAD
- SENIOR CONSULTANT

SAP FI

Financial Accounting

SAP FI module helps employees to manage data involved in any financial and business transactions in a unified system. This module functions very well for reporting requirements. The SAP FI module is very flexible and functions well in any type of economic situation. Be it a small or a large organization.

THE GOAL WOULD BE TO:

- Setup a business process
- Become familiar with the basic concepts of General Ledger Accounting, Accounts Receivable, and Accounts Payable
- Configure Asset Accounting
- Special G/L transactions and document parking

PROSPECTIVE CAREER ROLES
